Find Your Textbooks

Search

Book smarter. Get Smarter.

Get your textbooks from students who just took the same class!

Buying textbooks smarter is...

- Cheaper.
- Easier.
- Local.
- Happier.
- Better.

Once you are finished with your textbook, sell it to the next student in line!

Simply search for your textbook, contact the seller, and setup the exchange!

What is booksmart?

Booksmart is an easy way to buy books from students at your university. Primarily, purchases are for classes at UNC Charlotte. Buying and reselling books is one of the easiest ways to save money on textbooks.

How do you use it?

Simply search for a textbook that you need and see if a previous student is using their used copy. Once you find the book you need, you can contact the seller to inform them of your interest. Privately set up a place to meet to make the exchange. It is highly recommended that you meet in a public location to make the exchange, much like making purchases on Craigslist. Atkins or the Student Union at UNCC would make a great places to meet up.

If you have any questions, comments, or concerns, please [reach out](#).

Once you upload your cover photo, you may choose other photos to include.

Explanation of additional features

None

Explanation of status

All of the required components are present and working. Uploading a photo, or even assigning two images currently does not work.

Discuss challenges

This project may have been the easiest of the three! I had some difficulty positioning flash messages, but that was more of a css difficulty than js. Associating users and textbooks was fairly easy. It also was not very difficult to authorize the appropriate users.
